

Wireless Fiber Solutions for IP Camera Connectivity

Siklu delivers mmWave wireless fiber, in the uncongested frequency bands of 60/70/80 GHz for Avigilon video surveillance connectivity. Using advanced technology, Siklu solutions combine the reliability and gigabit capacity of fiber with the flexibility and affordability of wireless:

- Multi-gigabit capacity connecting multiple HD and 4K cameras
- Interference-free video surveillance connectivity
- 126 / 256 bit AES encryption, complete security
- Low Latency for excellent real time situational awareness
- 99.999% link availability
- Affordable plug & play auto-align solution for simple installation
- PoE out feature for powering up to 2 cameras directly per radio
- Significant cost and time saving compared to fiber

Over 200 smart city networks deployed across the globe are built on Siklu

Siklu radios deliver Gigabit connectivity for Mannheim Auto car auctions national locations
